10 mil white aluminum clad panel
 10mm (1/2") 4 ft. x 8 ft.
 An exceptionally strong aluminum composite panel with a high density poly core that will not swell, rot, corrode, or delaminate under prolonged water exposure. Both faces are baked gloss white to not crack, chip, bake, or peel. Average outdoor life of 10 years when installed properly.
229.00 ea

ALUMINUM SIGN PANEL

COROPLAST®

Coroplast is an extruded, twin-wall plastic sheet based on a high-impact polypropylene copolymer. This high quality, polypropylene profile sheet is formulated specifically for screen printing, displays and packaging. It uses a copolymer resin to increase impact and low temperature performance while retaining flexibility.

At regular temperatures most oils, solvents, and water have no effect on Coroplast, allowing it to perform under adverse weather conditions or when exposed to harsh chemicals.

Standard colours: White, Natural, Ivory, Yellow, Brown, Red, Orange, Light Blue, Dark Blue, Navy Blue, Silver Grey, Green and Black.

48" x 96" sheets can be assorted for quantity discount columns
