FABRIC PREP

ULANO GEL 23

An abrasive degreaser gel that combines the actions of Microgrit No. 2 and Screen Degreaser Liquid No. 3

The abrading action of Ulanogel 23 promotes better wetting of the fabric and adhesion of the stencil, and thus, longer press life. Its degreasing action removes dirt, dust, and oils from the fabric, reducing the risk of stencil failure and pinholing. Ulanogel 23 is ready-to-use and rinses off in hot or cold water. Its thixotropic character permits easy and effective preparation of larger screens held in a vertical position. Non-caustic - will not harm frames, fabric, or adhesives on stretch and glue frames. Recommended for use with all stencil systems on synthetic fabric only.

Gallon - 62.00

UNIVERSAL MESH-PREP

A non toxic fluid for degreasing and dramatically improving the wetting characteristics of all mesh types. Universal Mesh Prep is fast and easy to apply and harmless to the mesh. Developed for capillary films but suitable for all stencil systems.

5 Litre (1.32 gal.) Containers 68.00

ULANO #3 SCREEN DEGREASER LIQUID

A degreaser solution for all fabrics new or used, before stencil making - and as a degreaser after ink removal to speed the action of the stencil removal. Ready to use. No mixing. Foam action cleaning. Degreases effectively in hard water. Rinses clean with hot or cold water. Non caustic.
