

NEW! ECO FRIENDLY &
EASY TO USE

ChalkTalk™

Non-Vinyl Chalkboard Film

REMOVABLE CHALKBOARD FILM FOR YOUR CREATIVE USES!

WHAT IS IT?

ChalkTalk™ is a 6 mil, non-PVC, eco friendly chalkboard film, coated with a repositionable, removable adhesive. The grainy textured, slate gray film provides an exceptional finish for writing or drawing with chalk. And it wipes clean with an eraser, damp towel or sponge!

Unlike plasticized vinyl products, R Tape's chalkboard film is an environmentally friendly product, safe for use at home or in food service environments. **ChalkTalk™** has been tested by a certified independent lab for CPSIA compliance and contains no PVC, no phalates, and no carcinogens.

You can easily apply it to any flat, smooth surface, such as painted drywall, kitchen cabinets or refrigerators. Application is simple. Just remove the paper release liner and squeegee onto any nonporous, clean surface. When you are ready for a change, just peel off the film for a clean removal, with no adhesive residue. That means no extra time spent cleaning the wall!

RECOMMENDED APPLICATIONS:

- Wall decor
- Menu boards
- Writable decals
- To-Do or Grocery lists

ADVANTAGES:

- Textured surface provides an exceptional finish for writing and drawing.
- Wipes clean with an eraser or damp towel.
- Easy application to flat, smooth painted drywall, cabinet doors or refrigerators
- Removes easily with no adhesive residue. No time consuming clean up. No hazardous chemicals required for removal.
- Easy to cut by hand or computerized plotter into decorative and creative shapes.
- Safe and eco friendly. CPSIA compliant with no toxic plasticizers, no phalates and no carcinogens.
- Stocked as a standard product in **24" x 50yd (61cm x 45.7m) rolls.**
