

❖ **Printable Magnetic Sheeting (with White Vinyl Lamination)**

Special formula white vinyl (Gloss/Matte) laminated, which is suitable for direct solvent inkjet digital printing and silkscreen printing. This product is great for indoor use and outdoor use, and is compatible with solvent and UV-cured ink set, but always test print before production. Although, the best print results always requires custom profile with your printer and RIP software, a good starting point is the PSA vinyl profile bundled with your software.

Stock Availability: in rolls. **Available in Gloss/Matte white Vinyl.** Custom sizes are available.

Standard Roll Size:

- 24" in. (Wide) x 50' ft. (Long) x 0.015"/0.020"/0.030" in. (Thick)
