K80000 Hybrid Car Wrapping

[application guide](#)

KPMF Hybrid Wraps are superior quality soft Polymeric PVC films formulated by using the latest advances in PVC and pigment technology to offer exceptional dimensional stability and excellent long-term durability. They are suitable for long term applications in outdoor and indoor environments, offering excellent cutting and weeding properties. The combination of soft vinyl formulation and specific Airelease adhesive design offers excellent conformability and adhesion which allows the film to be removed without leaving adhesive transfer. Typical applications include total vehicle cover, vehicle graphics, signs and decal applications which require exterior exposure of 5 to 7 years. The material is designed to be removable, under controlled conditions, up to a period of three years.

K88025 Ultimate Hi Gloss Black Roof Wrap 48" width

[click for photos, specs, data, applic.](#)

Ultimate Black is a high gloss self-healing black vinyl which is ideal for accents during wrapping. It installs like a PPF product using a wet application method because there is no air egress liner. The material can stretch slightly, but is not designed to wrap an entire vehicle. It is perfect for roofs, small accents and especially chrome deletes. The special coating allows it to have an unrivalled high gloss finish that will self heal from small scratches and maintain its true black look for years.
