extra rubber bumpers available on all racks

Heavy Duty Models

A.W.T.'s Rack-It™ heavy-duty drying racks are the perfect choice for industrial drying applications. Built on a welded steel frame, these racks provide a safe and sturdy resting place for your substrates as they dry. Longer lasting than rubber, steel bumpers come standard on all of our heavy-duty racks and are welded to the outside of the shelf for maximum drying room. For smooth up/down operation, the individually adjustable shelf springs give you tension control over each shelf and all shelves feature a rust- and solvent-resistant, powder-coated finish to extend the life of the rack. Also available in heat resistant models for baking applications.

Hot-Flash AUTOTURN™
(Optional, Automatic head turning kit)

ADVANTAGES

- Solid-state or standard controls
- Protective safety screen
- High-density radiant heat panels
- Heavy-duty height adjustment
- Casters and levelers on base
- Easy pivot head

NEW OPTION

Hot-Flash AUTOTURN™ Head-turning Kit

This optional feature will allow for automatic curing and free up your time to print approximately 20% more garments per hour.

The A.W.T. Hot Flash™ is unmatched in value and performance. Solid-state or standard temperature controls provide the consistent heat settings required by today's wide variety of plastisol formulas. High density radiant heat panels assure even heat distribution for fast cure rates.

A protective safety screen prevents accidental contact with the heat panels. Other quality features include a heavy duty height adjustment, an easy pivot head and a solid base designed for extra stability.

Optional Features

HF-AF Hot Flash autofast heat turn kit	- 1421.25
HF-SPP Spare Parts Pkg. 60 Hertz	- 65.00
